objective I have an educational background in graphic design and have spent the last 7 years working on the frontend of web-based applications and websites as a developer and UX designer. I have a strong passion for UX and usability, which for me is all about understanding the users' needs to develop clean, consistent, accessible, and beautiful design patterns. I have many years of experience working with remote/distributed teams and love teaching others about frontend development, UX, and accessibility.

- skills**
- Expert in modern HTML, CSS (including Sass and Less preprocessors), responsive design and development, web accessibility, Markdown, Middleman
 - Expert in Adobe Photoshop and Illustrator. Proficient in Figma for wireframing, UI design, and prototyping.
 - Very solid grasp of information architecture, listening to and distilling user needs to create user flows, wireframing, prototyping, and UI design.
 - Proficient in Javascript, jQuery, Typescript, Angular,
 - Very proficient with Git and Github and familiar with Bitbucket
 - Familiar with React and Ember.js front end frameworks, Node.js ecosystem
 - Familiar with Flow, Ruby, Python, and Go
 - Strong teaching/tutoring skills in areas I have experience with

- experience** **SourceCred | UX Design & Development | Jan 2021 - Present**
- Designed new features for the SourceCred product, collaborated with engineers to strategize about new features, supported engineers with implementing design specifics (HTML/CSS), designed features starting from user flows to wireframes to final UI prototypes.
 - Collaborated on roadmap development for features and prioritization based on grants for certain feature work requested by DAOs using SourceCred.
 - Supported project management and wrote design specs for feature work.

Self Employed | Graphic/Web Designer | June 2019 - Present

- Logo design, website architecture and design work, social media advertisement design, document design

Chef Software | Software Development Engineer II | August 2015 - May 2019

- Built and maintained the UI/front end for Chef marketing websites (chef.io, habitat.sh, docs.chef.io, learn.chef.io, downloads.chef.io, etc) and the websites for our yearly events (ChefConf and Chef Community Summit)
 - Assisted with UI/UX design strategy
 - Transformed existing Chef web properties into a more consistent and streamlined design aesthetic
 - Worked with UX, product, and back end engineers to implement features on Chef Automate (our customer-facing product)
 - Helped to build and maintain the pattern library for use with Chef Automate
 - Tutored fellow engineers to improve their front end development skills
- Languages required: HTML (incl. Slim, ERB, Haml), CSS/SCSS, JavaScript (incl. jQuery and ES6), Ruby, Angular2, Git
