objective I have an educational background in graphic design and have spent the last 5 years working as a front end developer and designer. I have a passion for designing and building easeful user experiences, clean and simple design, and using design to make the world a better place.

education
» Code Fellows | Seattle, WA | 2014
  Certificate, Front-End UX Design and Development
» Massachusetts College of Art and Design | Boston, MA | 2008-2012
  BFA, Graphic Design with Departmental Honors

experience
» Freelance Graphic and Web Design | June 2019 - Present
  · Logo design, website architecture and design work, social media advertisement design, document design

» Software Development Engineer II | Chef Software | August 2015 - May 2019
  · Built and maintained the UI/front end for Chef marketing websites (chef.io, habitat.sh, docs.chef.io, learn.chef.io, downloads.chef.io, etc) and the websites for our yearly events (ChefConf and Chef Community Summit)
  · Assisted with UI/UX design strategy
  · Transformed existing Chef web properties into a more consistent and streamlined design aesthetic
  · Worked with UX, product, and back end engineers to implement features on Chef Automate (our customer-facing product)
  · Helped to build and maintain the pattern library for use with Chef Automate
  · Tutored engineers at the company to improve their front end development skills
  · Languages required: HTML (incl. Slim, ERB, Haml), CSS/SCSS, JavaScript (incl. jQuery and ES6), Ruby, Angular2, Git

» Front End Developer | ZIIBRA.com | November 2014-June 2015
  · Developed a variety of interfaces across ZIIBRA's website while working closely with our UI Designer
  · Designed/developed e-mail templates to send to users and artists on the platform.
  · Worked as part of a team to launch ZIIBRA's artist shops, update portfolio views, and implement new elements across the site to optimize social media sharing.
  · Languages/frameworks used : HTML, CSS, Less, Javascript, jQuery, Django, Python, Git
